STEPHENS'S LIQUID OAK, MAHOGANY, and SATIN WOOD STAINS, for staining various sorts of Interior Woods, so as to give them the appearance and character of the more costly and ornamental kinds. In the BUILDING and DECORATING CHURCHES, where it is desirable to give to the cheaper kind of woods the appearance of antique oak, or to make Deal assume the character of Oak Panelling, whereby the effect of the more costly may be produced by the use of a cheaper material, these stains will be found more effective than any means hitherto employed. For the exposed Timbers of the inside of the Roofs of Churches by brushing them over with the Stain, which operation is very rapidly, and of course economically effected, the appearance of an old-time roof will be produced. For colouring the backs of the seats, pews, the fronts of galleries, the pulpit, &c. it is equally advantageous.—Prepared by HENRY STEPHENS, and may be obtained at 54, Stamford-street, and at the Office of "The Builder," at both which places may be had the proper Varnish and Stain, with directions for use.
